Where is each animal?

Oona Owl lived in a nice big forest with her friends, Rocky Raccoon and Betty Bat. Oona and Rocky lived in a tree, and Betty lived in a cave near the tree. Every night, the three friends did everything together. They talked, laughed and hunted together. You see, owls, raccoons and bats don't sleep at night; they sleep during the day. "Sleep well, my friends," said Rocky. "Sweet dreams," said Betty. "Have a good sleep, friends," said Oona.

What do bats, owls and raccoons do at night?
