

1 Read the text and match the activities in bold (A-D) to the pictures (1-4).

Mother's Day

Mother's Day is a special day lots of people celebrate on the second Sunday in May every year. On this day, people show their mum how much they love her and thank her for everything she does for them.

Lots of children **A) make a special Mother's Day card** for their mum. Inside the card, they write short messages like 'Happy Mother's Day!', 'I love you very much!', and 'Thanks for everything, Mum!'.

Often, they **B) surprise their mum with flowers**, or **C) give her a gift** like a box of chocolates or sweets. Finally, lots of children do things for their mum. They **D) make breakfast and bring it to her in bed**. They also help tidy up the house.

So, what are you going to do for your mum on Mother's Day?

2 Read the instructions (A-D) and put them into the correct order.

This is a great Mother's Day gift for mums. Coupons are small pieces of paper with a chore or an activity on them that you can do to help or spend time with your mum. They're really simple to make and your mum is going to love them!

You need: paper/card, scissors, markers or crayons, glitter/stickers/ribbons for decoration

Here are some ideas for things you can write on the coupons:
 ✿ tidy my room ✿ make breakfast ✿ feed the dog ✿ do the washing-up
 ✿ watch a film with you ✿ read a book with you

A Finally, decorate each coupon with drawings, stickers and glitter.

B Then, on each coupon, write one of the nice things from your list just like in the picture.

C Firstly, make a list of nice things you can do for your mum on some paper.

D Next, cut a piece of paper or card into rectangles with the scissors – these are the coupons.
