# 1. School Manager: Role Explanation

A School Manager is the person responsible for managing the School/Sub School accounts for school(s)/academic institution(s) that have been registered on the Express DigiBooks by the School Master. This role is completely optional; however, it helps make the administration/managing of the school/academic institution much easier for the School Master.

Each School Manager has the ability to:

- Organise the school/academic institution's School account on the platform, as well as any Sub-Schools, and also create and manage Student, Teacher, and School Manager accounts, following the specific instructions, given further down.
- Give assignments and monitor students' progress.
- Manage extra platform features, such as *Gamification*.

## 2. Sign Up

The *School Manager* needs to be registered on the platform by the *School Master* or another registered *School Manager*.

# 3. Logging in to the platform

To log in to the platform and use your School Manager account:

- A. Enter your email or Username
- B. Enter your *Password*
- C. Select this field if you want the platform to remember you when you next enter it
- D. Select this field to log in to the platform.

## 5. School: Organisation & Management

In this field you can organise and manage the **School** account of your school/academic institution.

**IMPORTANT NOTICE:** Do not forget to choose from the side menu (as you can also see in the photo below) both *Sub School* and *School Year*, so that you can create/manage the corresponding *Sub School* with the corresponding *School Year*.

### i. Sub Schools: Organisation & Management

If the school/academic institution you manage has branches, you can follow the steps below to create them.

**<u>Step 1</u>**: From the side menu, first select field icon A  $\hat{m}$  and then select field B ('View All').

Step 2: Select the field 'Create' as the red arrow in the image below shows.

**Step 3:** Enter the branch's details in the form below (all fields are required).

- A. Branch name
- B. Branch telephone number
- C. Branch country
- D. Branch email address
- E. Branch address
- F. Branch city
- G. Branch postcode/P.O. Box
- H. Select the field 'Create' to register the branch on the platform
- I. Select the field 'Back' to either register any additional branches on the platform or to manage those already registered on the platform.

To manage the branches of your school/academic institution, in the **Sub Schools** list, select the 'Edit' field, shown in the red box in the image below:

**IMPORTANT NOTICE:** If any **Student** has registered on the platform as **a** *Member*, then you can give them the 'School Code', as seen in the picture above in the first column on the left, to add themselves to your school/academic institution.

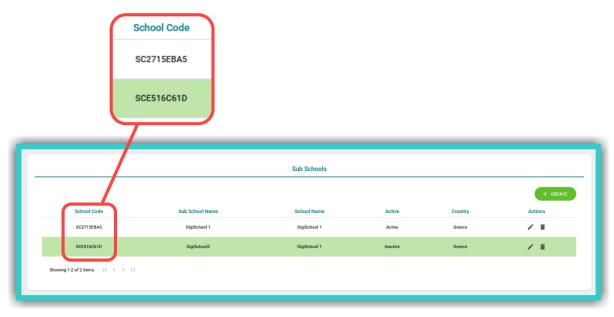

In the form below you can change/update any fields or enable/disable branches.

A. For the *School Manager* to have the ability to make changes to the *Sub Schools* settings.
B. To enable or disable the *Lessons* feature (see the respective user instructions <u>HERE</u>).

**IMPORTANT NOTICE:** The *Lessons* feature gives you the ability to manage your school in even more detail. More specifically:

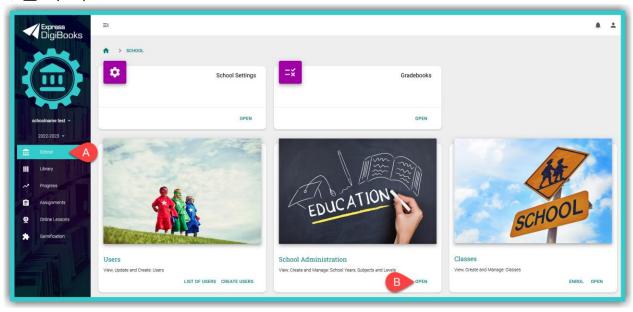

- it gives you the opportunity to organise/manage the annual *Calendar* of each *School* or *Sub School* (i.e. the main school and/or any branches), per teacher and subject taught.
- you can register any student absences.

C. If students can see the answers to exercises or not.

## iii. Create: School Year & Terms/Semesters

To organise your **School** you first need to create the **School Year**, as well as any **Terms/Semesters** there might be.

<u>Step 1</u>: From the side menu, first select field A (*School*) and then field B (*School Administration* → 'Open').

**<u>Step 2</u>**: Select the field 'Create' as shown by the red arrow in the image below.

- N. Export the *Progress* results (with the filters selected) to a .csv spreadsheet format, which can be opened with, for example, Microsoft Excel.
- 0. See general statistics for your school.

**IMPORTANT NOTICE:** The platform by default shows you the items (attempts made by students in exercises) of the last six (6) months. Depending on the number of items you want to see, the *Progress* results could take a few seconds before they load.

# 9. Lessons: Use & Management

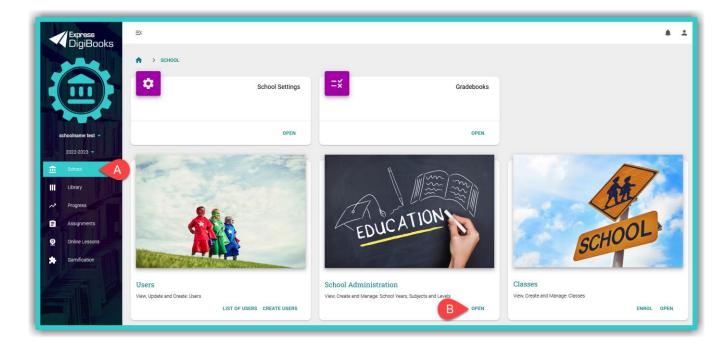

The *Lessons* feature gives you the ability to manage your school in even more detail. More specifically, you can:

- organise/manage the annual *Calendar* of each *School* or *Sub School* (i.e. the main school and / or any branches), per teacher and taught subject.
- register any student absences.

To enable the **Lessons** feature, you need to go from the side menu to: **School Settings Hessons** and toggle the switch on.

### i. Create: Lessons

# 11. Gamification: Use & Management

To use *Gamification*, you first need to select the field shown by the red arrow in the following image. Then selecting field:

- A. Clans → 'Open': you can create and manage your Clans. Clans are the various groups/teams you need to create so that they can participate in Gamification. Each Clan can be composed of Students from various Levels or from within the same Level. It is up to you to organise the groups/teams. Each Clan 'competes' against the other in an unofficial championship of knowledge.
- B. Assign Badges → 'Open': you can give (assign) virtual stickers (badges) to your Students. These are of a completely educational nature and are used to reward students for their achievements and/or skills. Badges are optional. They can be given at any given time to whichever Student you want. Once assigned, Badges cannot be unassigned.
- C. Missions → 'Open': you can assign Missions to your Classes. Students are asked to complete a Mission. Once completed successfully, a Student is awarded Stars and ELECs. Depending on the Student performance in a Mission, the respective Stars are awarded. For a performance of greater than 70% the student is awarded 1 Star, between 80% and 89% 2 Stars, and from 90% and above 3 Stars.

# > Clans

- To create Clans:
  - From the side menu select: *Gamification* → *Clans* → 'Open'.
