

GRAMMAR GAMES INSTRUCTIONS

- **Divide students into groups** and indicate the tense they are expected to use.
- **In turns, each student flips a card** and creates a meaningful sentence with the indicated verb using the target language.
- **Students peer-review each other**, while the teacher monitors.
- **If a student wins, they keep their card.** If they don't, they must give their card to their partner. Whoever has the most cards at the end, wins.

Alternatively, review the Simple Past and the Past Participle of verbs, as long as it suits your students' level.
