

**SECONDARY STUDENTS**  
WORK IN GROUPS OF THREE.

### Step 1: Think About the Future

You are 18 and just finished school! What is the world like then?

	Situation	People need help with...
Environment		
Technology		
Friends & Family		
Cities		
Learning		

### Step 2: Choose the Most Important Problem.

Who does this problem affect?

Why is this problem important?

What could happen if nobody solves it?

### Step 3: Who Can Help?

If people need help with this... they will need someone to:

---

---

---

(Examples: to guide, to design, to fix, to protect, to teach, to build, to create, to support, to plan, to train)

### Step 4: Turn Help into a Job

Now imagine a person who does this every day.

A person who helps like this could be called a:

---

---

**You can invent a new name or combine words.**

(Example: Designer, Guide, Builder, Planner, Coach, Specialist, Explorer, Engineer, Analyst)

What does this person do?

---

---

---
